**General Comment:**

On 8/25/2022, Reclamation Specialist Trujillo inspected Lasso Oil and Gass LLC's Young 11-14 Location in Garfield County, Colorado.

Any corrective action(s) from previous inspections that have not been addressed are still applicable: Refer to inspection #693804397 regarding the following corrective actions:

- Signage at well/blowdown tank and emergency contact records
- Weeds at blowdown tank
- MIT

The following new compliance issues were observed during this inspection:

606.c/1003.f: Undesirable Plant Species

Refer to the "Location" and "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

**Location**Overall Good: ☐**Signs/Marker:**

Type	OTHER		
Comment:	<p>Previous inspections observed sign at the blowdown tank with incorrect Operator information. Inspection required Operator to comply with Rule 605.h.</p> <p>CA from previous inspection not completed. CA date remains the same.</p>		
Corrective Action:	Install sign to comply with Rule 605.h.	Date:	06/18/2021
Type	WELLHEAD		
Comment:	<p>Previous inspections observed sign posted on meter housing; sign does not contain required information. Inspection required Operator to comply with Rule 605.d.</p> <p>CA from previous inspection not completed. CA date remains the same.</p>		
Corrective Action:	Install sign to comply with Rule 605.d	Date:	06/18/2021

**Inspected Facilities**Facility ID: 210582 Type: WELL API Number: 045-06338 Status: SI Insp. Status: SI**Idle Well**Purpose: ☒ Shut In ☐ Temporarily Abandoned

Reminder: \_\_\_\_\_

Comment: Previous inspection observed that well was "shut in" 6/1/2020; no current MIT on record. Inspection required Operator to produce well after performing successful mechanical integrity test per Rule 417 or plug well. To maintain shut-in status, the well must be able to demonstrate ability to produce without mechanical intervention.

Unable to find record of MIT.

CA from previous inspection not completed. CA date remains the same.

Corrective Action: Produce well after performing successful mechanical integrity test per Rule 417 or plug well. To maintain shut-in status, the well must be able to demonstrate ability to produce without mechanical intervention.

Comment

It was observed in this inspection that Jointed Goatgrass (*Aegilops cylindrica*) has established throughout the majority of the eastern end of the site, and along the access road, creating an invasive monoculture outcompeting desirable plant species; additional reclamation work required to ensure site progresses towards an 80%, uniform desirable perennial vegetative establishment. See "Good Housekeeping" for corrective action regarding noxious weed management.

Corrective Action

Comply with 1003 rules and conduct additional reclamation. Implement best management practices and strategies to ensure site progresses towards COGCC 1003 requirements, including an 80% uniform, desirable perennial revegetation standard. Conduct ongoing monitoring/management efforts until site receives a passing final reclamation inspection. A CA date of 11/15/2022 is being provided to allow operator to implement initial weed management strategies prior to reclamation efforts.
