Gentlemen:

Enclosed herewith please find, properly completed by my geologist, Charles O. Hile, final report, your Form #2 in duplicate, covering wildcat well Graham No. 1, Section 3, 9N-55W, Logan County, Colorado.

Also please find enclosed copy of Electrical Log covering the above well by Schlumberger Well Surveying Corporation, together with Micro-Log by the same company for your records.

I have been informed by the Herndon Drilling Company the Graham No. 1 well was plugged, according to the Colorado state requirements, by the Halliburton organization, on June 20, 1955.

I trust these records are complete, but if there is any further information you desire I can have Mr. Hile comply, whose address is:

Charles O. Hile  
Voegtle Building  
Boulder, Colorado.

Very truly yours,

Roy H. Johnston
