**General Comment:**

On 08/23/2022, Reclamation Specialist O'Malley conducted a Final Reclamation and Stormwater inspection at White River Development Company LLC's Woodward-64S94W /22SESW Location #324132 in Garfield County, Colorado.

The following compliance issues were observed during this inspection:

- Noxious Weeds widespread
- Final Reclamation: Revegetation failed around previous equipment locations

Refer to the "Location," "Reclamation," and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Type	WEEDS		
Comment:	CO List B Noxious weeds are widespread and common on Location. Species include bull thistle, musk thistle, and houndstongue.		
Corrective Action:	Comply with Rule 606/1004.e. Conduct weed management to prevent further establishment and spread of Noxious Weeds. Any dead weeds left are considered debris and require removal in accordance with 606 rules. Ongoing weed management required until the Location receives a passing Final Reclamation inspection.		Date: 08/29/2022

VEGETATIVE COVER FAIL

Comment:

Refer to the "Location" section of this inspection report for weed control corrective action.

This location does not meet reclamation requirements. Transects were conducted indicating vegetation is not 80% of the reference area. See attached transect data results. Reclamation does not appear to have been properly performed and/or revegetation has failed in equipment footprints; at the center (area around wellhead) and the south of the Location (area of tanks and Location entrance) there is no evidence of seeded species, gravel remains and soils are compacted. A corrective action date of 11/15/2022 is given to allow for fall seeding.

The Location access road was not reclaimed per approved Surface Owner Final Reclamation Variance #1309807.

Corrective Action:

Comply with 1004 Rules.

Date **11/15/2022**

Conduct additional reclamation in areas where equipment was previously located/where revegetation has failed at the center and south of the Location. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels on the Location. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local soil conservation district. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. Revegetation activities shall be completed no later than 11/15/2022.
