#### Operator Comments:

Through continued monitoring, Caerus has determined final reclamation of this location is complete per Rule 1004.c. Please see the attached third-party quantitative vegetation assessment showing the reclaimed disturbance has achieved Rule 1004.c.(2) cover standards. The Surface Owner's final reclamation variance request was submitted on 2/28/2019 and approved on 9/15/2020 (Doc #401809327). The perimeter fence will remain in place to prevent cattle grazing until the site passes a final reclamation inspection with fence removal COA. The fence will then be removed with the final maintenance reported through Form 4 Sundry Notice. Caerus respectfully requests the COGCC perform a final reclamation inspection during this growing season to ensure the site can be returned to the Surface Owner in a timely manner.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
