Site Investigation and Remediation Workplan (Initial Form)

This form shall be submitted to the Director for approval prior to the initiation of site investigation and remediation activities. However, this shall not preclude the Operator from taking immediate action to protect public health or safety, the environment, wildlife, or livestock.

This Form 27 describes site conditions as currently understood by the Operator; approval of this Form 27 by COGCC is based on the site conditions accurately described herein; any changes in site conditions identified during or subsequent to the performance of the approved workplan may necessitate additional investigation or remediation which shall be described on a supplemental Form 27. This Form 27 is intended to provide basic information regarding the proposed site investigation and remediation actions, but the workplan may be more fully described in attached documentation.

Closure request is not available for an Initial Site Investigation and Remediation Workplan.

RECLAMATION PLAN

RECLAMATION PLANNING

Describe reclamation plan. Discuss existing and new grade recontouring; method and testing of compaction alleviation; and reseeding program, including location of new seed, seed mix and noxious weed prevention. Attach diagram or drawing.

The former pit was backfilled and seeded sometime prior to October 12, 2004, and the former pit footprint has established vegetation. The Lion Government 7 well was plugged in 2021 and Foundation will perform final reclamation of the entire location according to COGCC's 1000-series rules.

Is the described reclamation complete? Yes _____

Does the reclamation described herein constitute interim or final reclamation of the Oil and Gas Location?

☒ Interim ☐ Final

Did the Surface Owner provide the seed mix? _____

If YES, does the seed mix comply with local soil conservation district recommendations? _____

Did the local soil conservation district provide the seed mix? _____

SITE RECLAMATION DATES

Proposed date of commencement of Reclamation. _____

Proposed date of completion of Reclamation. _____

IMPLEMENTATION SCHEDULE

Per Rule 913.d.(2): Any change from the approved implementation schedule will be requested at least 14 days in advance, and the Operator may not make the change without the Director's approval.

PRIOR DATES

Date of Surface Owner notification/consultation, if required. _____

Actual Spill or Release date, or date of discovery. _____

SITE INVESTIGATION DATES

Date of Initial Actions described in Site Investigation Plan (start date). 10/11/2004

Proposed site investigation commencement. _____

Proposed completion of site investigation. _____

REMEDIAL ACTION DATES

Proposed start date of Remediation. _____

Proposed date of completion of Remediation. _____

Per Rule 913.d.(2): Any change from the approved implementation schedule will be requested at least 14 days in advance, and the Operator may not make the change without the Director's approval.

☐ Change from approved implementation schedule per Rule 913.d.(2).

OPERATOR COMMENT

Foundation Energy acquired the Lion Government 7 well from Whiting Oil & Gas in 2016. Prior to that time, and prior to Whiting's operation of the well, a previous operator permitted the well's reserve pit with COGCC via Form 15. The pit was a 125' x 75' x 10' plastic lined reserve pit for holding drill cuttings. The pit was dried out and backfilled sometime prior to October 12, 2004. These activities were reported to the BLM by sundry, but it does not appear that COGCC received notice of pit closure work. Historical documentation and aerial photos are attached to this Form 27 for reference. Also attached are photos taken in June 2022 showing that the former pit footprint has established vegetation.

The BLM has approved the pit closure due to the successful reclamation of the former pit area. The approved BLM sundry is attached to this Form 27.

Based on this information, Foundation is requesting closure of pit facility ID: 268590.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.
