Comment: **Operator representatives observed flood irrigation operations in late August (8/29-8/30) confirming similar observations made by COGCC Staff back in mid-July (7/16-7/17). There is a section along the western location that is too high that is not allowing for successful flood irrigation.**

**Operator has agreed to conduct further reclamation activities later in Fall 2022.**

Corrective Action:	Comply with Rule 1004. Collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production.	Date	11/14/2022
