General Comment:**COGCC Inspection Report Summary**

On Monday 9/5/2022 at approximately 1400, I, Inspector Scott Ramsey, conducted an inspection on site in response of Complaint from wild earth guardians at Robert Bayless Dry Creek Federal 1-14, at Location # 316764 in Route county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed NO evidence of gas leak located with OGI camera.

During this inspection the following possible compliance issues were observed:

1. Load lines missing caps/plugs
2. Well is lacking API # and access road information
3. Tanks are missing operator information
4. Random staining
5. Random debris

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
