**General Comment:**

On 09/16/2022, Reclamation Specialist O'Malley conducted a Final Reclamation and Stormwater inspection at Bonanza Creek Energy Operating Company LLC's Federal-69N78W /27NWSE Location #324686 in Jackson County, Colorado.

The following compliance issues were observed during this inspection:

- Noxious weeds
- Reclamation: equipment and access road remain
- Stormwater: gully erosion

Refer to the "Location," "Reclamation," "Stormwater" and "COGCC Comments" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

	<p style="color:blue;">Refer to the "Location" section of this inspection report for weed control corrective action.</p> <p style="color:blue;">This location does not meet reclamation requirements. The access road remains, it has not been properly recontoured/regraded; the crown and tracks remain. Vehicles appear to be utilizing the road, which is compacted, graveled and largely bare of desirable vegetation. An anchor was observed to the northeast of the location. What appears to be a locator wire was observed to the east of the location. A t-post of unknown purpose is present. All equipment must be completely removed.</p>	
Corrective Action:	<p style="color:red;">Comply with 1004 Rules.</p> <p style="color:red;">Remove all equipment and revegetate disturbance caused by removal. Reclaim the access road. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local soil conservation district. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until final reclamation has passed. Revegetation activities shall be completed no later than 11/15/2022.</p>	Date <u>11/15/2022</u>

**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: Insufficient stormwater and sediment control BMPs in place; there is a gully present at the southeast of the Location which is resulting in onsite and offsite degradation. Long-term stabilization of the site is required to receive a passing final inspection.

Corrective Action: Comply with 1002.f. Implement and maintain stormwater and erosion control BMPs until long-term stabilization has been achieved and site has received a passing final reclamation inspection.

Date: 11/15/2022

**Pits:**  NO SURFACE INDICATION OF PIT

COGCC Comments		
Comment	User	Date
If the Location receives an approved Final Abandonment Notice (FAN) from the BLM, the Operator shall submit it to COGCC attached to a "Final Reclamation Complete" Form 4 Sundry.	omalleya	09/23/2022
