To Whom It May Concern:

Great Western Operating Company, LLC ("Great Western") plans to drill oil and gas wells from the above-described surface locations.

Rule 603a.(2) of the Colorado Oil and Gas Conservation Commission ("COGCC") Rules and Regulations requires that wells drilled shall be located not less than one hundred fifty (150) feet from a surface property line. The Director may grant an exception if it is not feasible for the Operator to meet this minimum distance requirement and a waiver is obtained from the offset Surface Owner(s).

For safety and mechanical considerations, as well as surface constraints, Great Western is seeking from the COGCC an exception to this rule. Please indicate your consent to the COGCC waiving this requirement by signing below.

Respectfully,

Philip Hancock, Surface Land Manager
