On behalf of LMB Capital Partners, LLC (“LMB Capital Partners”), I am submitting this Rule 510 Statement in support of Great Western Operating Company, LLC’s (“Great Western”) application in Docket No. 190900569. On June 25th, 2019, Great Western filed a pooling application in Docket No. 190900569 for an order to, among other things, pool all interests within an approximate 640-acre drilling and spacing unit established for the E/2 of Sections 02, & 11, Township 1 South, Range 68 West, 6th P.M., and to subject any nonconsenting interests to the cost recovery provisions of §34-60-116(7), C.R.S., for the drilling, operating and production of up to two (2) horizontal wells to the Codell and Niobrara Formation on the following described lands:

Township 1 South, Range 68 West, 6th P.M.

Section 02: E/2

Section 11: E/2

LMB Capital Partners, LLC owns significant leasehold acreage within the above-described lands. LMB Capital Partners, LLC supports Great Western’s development plan for the above-described lands, and specifically supports Great Western’s pooling application as protecting LMB Capital Partners, LLC’s correlative rights and resulting in development that will meet the requirements of the Oil and Gas Act, as amended by SB19-181.

Great Western’s overall development plan for the above mentioned lands provides for efficient and economic development, prevents increased surface impacts, protects against adverse impacts to public health and the environment, serves to prevent waste and protects LMB Capital Partners, LLC correlative rights in accordance with the Act. Great Western has complied with all requirements of the Act and COGCC Rules with respect to pooling LMB Capital Partners, LLC’s interests within the above-described lands.

Accordingly, LMB Capital Partners, LLC recommends approval of Great Western’s application for these reasons.

Respectfully Submitted this 26th day of SEPTEMBER, 2019.
