Comment:

Corrective Action:	<p>This location does not comply with Rule 1004. There appears to be an approximate 200 foot section of flowline where crop growth is not reflective of reference areas. Based on historic aerial imagery from 2016, there may have been previous vegetative issues associated with the flowline area.</p> <p>The associated offsite tank battery is not within crop production and there were no noxious weeds observed.</p>	Date 09/28/2022
	<p>Comply with Rule 1004. Collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production. Provide documentation within the FIR Resolution form of when the corrective action work will be completed and provide date and documentation of coordination with the surface owner.</p> <p>The corrective date is the date the location was observed out of compliance.</p>
