**General Comment:**

On 09/28/2022, Reclamation Specialist O'Malley conducted a follow up to inspection #702800526 at Lyster Oil Company Inc's McDermott-Federal (GOV)-66N86W /24SESE Location #399184 in Routt County, Colorado.

The following compliance issues were observed during this inspection:

- Equipment/debris remains on Location

Refer to the "Reclamation" and "COGCC Comments" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

**COGCC Comments**

Comment	User	Date
<p><b>Final Reclamation Comments</b></p> <p>Previous inspection #702800526 observed multiple buried pipes throughout the fill slope of the Location. Pipes run parallel to the slope/come out of the fill and also run perpendicular to the slope. Loose pipe and cable debris is also present on the ground surface of the pad. Inspector required Operator to remove all buried pipes and debris from the Location. Implement long term stabilization of areas disturbed by buried pipe removal by 9/29/2022.</p> <p>Operator submitted FIRR #403142838 indicating cleaned up location of all pipes.</p> <p>It was observed in this inspection the one pipe remains buried in the fill slope which was indicated in previous inspection photos. A cable is also present nearby. Pipe debris was also remaining on the soil surface. Inspector piled debris at well marker for removal. See attached photos for remaining buried pipe, cable and debris approximate location and coordinates. Original corrective action and date remain applicable.</p>	omalleya	10/04/2022
