| | <input type="checkbox"/> Convert to Injection | <input type="checkbox"/> Plug Back | <input type="checkbox"/> Water Disposal | |

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Utah Gas Corp has successfully completed final reclamation at the Federal 1008 well pad and requests Final Abandonment Notice (FAN) approval, and bond release. On-site final inspection with WRFO BLM NRS occurred on June 25, 2020 and site was determined to have met success criteria. Fence will be removed upon conditional approval of the FAN.

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #523143 verified by the BLM Well Information System
