Comment: **The access road and location have not been reclaimed. The soils are compacted and no vegetation is growing. There are also concerns of soil issues due to areas bare of vegetation where former pit was located. The soil and gravel were not removed/leveled at the pumpjack and there is oil stained soils at this area that need to be cleaned up. All reclamation should have been completed within 3 months of abandonment. Corrective action must be performed immediately to obtain compliance.**
