17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Date of work 10/26/71 to 10/31/71

Well was spudded on 10/26/71. After running and cementing surface casing, well was drilled to total depth of 5966' and electric logs run. No significant shows of oil or gas were encountered so well was plugged and abandoned on 10/31/71 as follows:

A 15 sack cement plug was set from 115' to 145' across base of surface casing,  
 A 10 sack cement plug was set in top of surface casing to 30'.  
 Intervening depths were filled with heavy mud.
