**General Comment:**

COGCC Inspection Report Summary

On Wednesday 11/8/2022 at approximately 1100, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Burckle A, at Location # 335540 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

C/A (Erosion on cut slope) from previous inspection document # 700704325 has not been completed. Therefore C/A date remains the same.

During this inspection the following compliance issues were observed:

1. Erosion on cut slope BMP's failing (C/A date 3/13/2022) remains
2. Drain in S/E corner of location is failing
3. Random debris

Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
