<p>COGCC Inspection Report Summary On Thursday 11-10-2022 at approximately 1000 hrs. I, Inspector Robbie Revas, Conducted an on-site inspection: Operator: KP Kauffman Location name: Champlin 86 Amoco B #2 API #05-123-08756 County: Weld Weather: Clear. Location: Dry. While there, I observed a Wellsite and tank battery facility with active excavation work North of the location to upgrade a flow line at the time of inspection. During this inspection, I observed no compliance issues: Wellsite and Battery are located within a housing Subdivision and the excavation work is North between the subdivision and an elementary school. KP Kauffman is in the process of upgrading a flow line tied to the Facility 4B- West Facility and the Champlin 86 Amoco B#2 well. Work is planned on being completed by day's end, Disturbed area will be protected with fencing and covered with straw roll and waddells until reclamation can occur. Flow line will be pressure tested when all the work is completed in the area and returned to service. See attached photos. No follow up site inspection is needed to ensure that the addressed Compliance issues comply with COGCC rules.</p>	revasr	11/10/2022
