Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: There is a culvert along the access road that has filled in with sediment causing stormwater to flow down the road causing an erosion channel on the road. The erosion along the road needs to be repaired. The culvert may not be adequate at the drainage crossing since it has filled in with sediment. A long term solution may need to be considered.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)
