API# 05-001-08166

Dear Mr. Roy D. Merrill:

A wellsite inspection on October 12, 1988 revealed that reclamation work on the above captioned well is incomplete.

Colorado Oil and Gas Conservation Commission Rule 319 requires abandoned sites to be cleared of equipment and restored within a reasonable time not to exceed six months from the plugging date. The well was plugged May 11, 1987.

It is recommended that restoration and equipment removal be completed at your earliest convenience. In the event a landowner release has been granted, please forward a copy to this office. Please notify this office of your intentions within 30 days of the above date.

Sincerely,

Eddie B. Binkley  
Petroleum Engineer
