Environmental**Spills/Releases:**

Type of Spill: PRODUCED WATER

Estimated Spill Volume: _____

Comment: See Spill/Release ID 483021 for more information. 11/8/2022 COGCC arrived on location to conduct an inspection of Spill/Release ID 483021. An un-fenced excavation with a 3-inch HDPE produced water line was observed. The excavation measured approximately 20'x20'x4'-6' (LxWxH). The operator was in the excavation and was using a hacksaw to cut the 3-inch HDPE produced water line. Produced water was then observed to be discharging from the water line into the excavation. The operator then informed COGCC staff that the water line was energized to approximately 300-400 PSI and that there were no blow down valves to de-energize the line. Produced water continued to be discharged into the excavation while COGCC staff conducted the inspection of the spill/release area. A vac truck was on location to remove fluids that accumulated in the excavation. Stockpiles of apparent E&P impacted soil were located on the north, east, and west side of the excavation. The stockpiles had detectable hydrocarbon odors and visible salt staining. The stockpiles of apparent E&P impacted soil were not stored, handled or managed in a way to prevent contamination of stormwater and soil which is required per Rule 913.b.(5).B.iv. See attached Photo Log and videos for details. 11/9/2022 COGCC staff John Heil and Alex Fischer contacted operator to discuss the observations from the 11/8/2022 inspection. Staff also instructed the operator to complete an additional Initial Form 19 for the spill/release from cutting the 3-inch produced water line as well as a Site Investigation and Remediation Workplan, Form 27.

Corrective Action: Immediately comply with Rule 913.b.(5).B.iv. Submit Form 19 Initial for the spill/release from cutting the 3-inch produced water line (72-hours after discovery, CA date of 11/11/2022 per Rule 912.b.(3)) Submit Form 27 Initial. On the Form 27 Initial, operator shall provide documentation demonstrating that they complied with COAs listed on Form 19 Initial Doc #403182818 (14-days, 11/23/2022.)
