NOTES:

- Distances referenced on plat to section lines are perpendicular.
- All bearings hereon are grid bearings of the Colorado State Plane Coordinate System, North Zone, North American Datum 1983. The bearing of the line between the 1/4 corner of sections 33 and 34, and the corner of sections 33, 34, and 4 is N.00°10'10"W.
- The purpose of this well location plat is to show the SHL and BHL of proposed wells in relation to the exterior lines of sections containing those SHL and BHL locations.
- The Railroad R-O-W was determined by conducting a field survey of the centerline of the railroad tracks, and incorporating a 200 foot offset on either side, for a total right-of-way width of 400 feet.
- This well location certificate is not a land survey plat or an improvement survey plat.
