**General Comment:**

On 11/7/2022, Reclamation Specialist O'Malley conducted an interim reclamation and stormwater inspection at TEP Rocky Mountain LLC's LANGSTAFF-66S94W/16SWSW Location #335194 in Garfield County, Colorado.

The following compliance issues were observed during this inspection:

- Noxious weeds

Refer to the "Location," "Reclamation" and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

**Location**Overall Good: ☐**Signs/Marker:**

Type	WELLHEAD		
Comment:	Inspection #699805109 observed wellhead sign weathered and not legible. Inspector required Operators to ensure that signs are well maintained and legible, and will replace damaged signs by 11/24/22. Corrective action has not yet been addressed; wellhead signs appear faded, illegible. This inspection was done within the corrective action timeframe.

1003 f. Weeds Noxious weeds? F

Comment 
Refer to the "Location" section of this inspection report for weed control corrective action.  
  
Areas of the location not needed for production, or no longer in use have been reduced and reclaimed. Interim areas are vegetated with native and introduced perennial grasses (western, crested and intermediate wheatgrass, smooth brome) and native shrubs (greasewood, rubber rabbitbrush). The northern portion of this location has been poorly recontoured/not recontoured; cut slope remains evident, with flat pad below. Additional contour work may be necessary during final reclamation.
