Operator Comment: No routine gas venting is occurring. Produced gas is being metered and sold to a third party Bitcoin mining operator (Datahawk Energy LLC) utilizing electrical generation equipment. Since no venting and flaring is anticipated per normal operations, no Form 4 requesting permission to vent or flare is required per Rule 903.d.(3). Measurement of gas sold to the third party is occurring in order to comply with Rule 903.d.(4).

OPERATOR COMMENT AND SUBMITTAL

Comment: All corrective actions are addressed within this FIRR pertaining to a field inspection from 5/16/2022. Gas venting observed was as a result of equipment malfunction and is not done as a part of standard operation. Renegade believes that per rule no gas capture plan or Form 4 is required for the third party onsite gas use for electrical generation.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
