COMMENTS:

The APD projected the well to TD at 9300' (MD & TVD); However, this is an exploratory pilot hole that is being drilled in a previously undrilled area. Therefore, based on the well cuttings, it appears that all of the prospective formations are deeper than originally anticipated. We would like to amend the APD to allow us to drill to a total depth of 10,800' Nevertheless, we will stop drilling if we encounter basement rock prior to that depth.
