## Final Abandonment

**Sundry ID:** 2704923

**Type of Submission:** Final Abandonment Notice

**Type of Action:** Final Abandonment

**Date Sundry Submitted:** 11/29/2022

**Time Sundry Submitted:** 14:26

**Date Site Reclaimed:** 10/01/2011

**Number of Acres Reclaimed:** 11.2

**Comments:** The FEDERAL #1S-95-19-22BP well (API 0510310994) was permitted by the previous operator, XTO Energy Inc., in 2007. The well pad was constructed and then abandoned in 2011: No wells were drilled. Per BLM records, the previous operator reclaimed all surface disturbance in 2011. Caerus completed reclamation monitoring and an environmental site assessment during the 2022 growing season. A third-party vegetation survey was completed July 8, 2022. Based on these assessments, final reclamation of the disturbance is successful and a self-perpetuating native plant community has been reestablished. Please see the attached report for vegetation survey results. Weeds (Common mullein) depicted in the vegetation survey photos were manually removed prior to seed dispersal in late summer 2022.
