**CORRECTIVE ACTIONS:**

1 CA# 166193

Corrective Action:

Date: 11/15/2022

Properly report grade 1 gas leaks to comply with Rule 1104.k and/or determine if this was a Grade 1 gas leak after contacting COGCC flowline people.

GRADE 1 GAS LEAK means a gas leak that ignites or represents an existing or probable hazard to persons or property and requires immediate repair or continuous action until the conditions are no longer hazardous.

Response: CA COMPLETED

Date of Completion: 11/23/2022

Operator  
Comment:

Verified with Joe MacLaren that the matter did not qualify as a Grade 1 gas leak.

COGCC Decision: Approved

COGCC  
Representative:

Per COGG/Flowline Integrity, this is not a grade one gas leak. The repair was to a 1 1/4" gas return line from the gas plant to the Aloha Mula 10 treaters. Gas return line risers on well now with electric motors will be checked for LO/TO.
