Corrective Action: Comply with 1003 rules and conduct additional reclamation work. Continue to monitor and manage interm areas to ensure site progressing towards 1003 reclamation standards.

Date: 09/01/2022

Response: CA COMPLETED

Date of Completion: 11/18/2022

In response to lack of vegetation growth on the Skinner Ridge 28-1 partial reclaim, the area was reseeded using a drill on 18 November 2022. Additional soil supplements were broadcast on this location prior to seed drilling.

Operator Comment: With the additional seed, soil supplements and moisture this winter it is expected that we will see additional growth on the SKR 28-1 partial reclaim.

COGCC Decision: Approved pending re-inspection

COGCC Representative: Approved pending re-inspection of this FIR resolution acknowledges the document was received. It is not an acknowledgement that the corrective action has been passed. A field inspection will be conducted at a future date to evaluate compliance with COGCC rules.
