Gentlemen:

The above captioned well was plugged under your bond on August 29, 1979. It was recently observed to be leaking salty water to the surface. This well is in violation of the Oil and Gas Commission Rule 319.

Allison is required to re-enter this well and set cement plugs to stop fluid flow to surface. Allison is required to submit a plan to replug this well by May 31, 1993.

The present landowner is Mr. Harry Hanks in Byers at 1-822-5753. The surface is pasture land and should be readily accessible for re-entry operations.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Eddie Binkley'.
