CORRECTIVE ACTIONS:

1 ☒ CA# 164058

Corrective Action: Operator shall provide documentation of an approved disturbance area change from 13.74 to 15.21 acres.

Date: 08/26/2022

Response: CA COMPLETED

Date of Completion: 08/24/2022

To address concerns regarding the discrepancies in the permitted disturbance (13.73 acres) listed on the original

Operator Comment: Form 2A (Doc 401189323) versus actual (15.21 acres). Please review the attached location drawing (Doc 402980443) and approved Form 4 (Doc 403067544) both of which were submitted on 3/10/2022. The approved sundry specifically calls out the updated location drawing in the Operator Comments. While the change was not directly requested on the sundry, it is Axis' opinion the change in permitted disturbance was adequately conveyed to the COGCC via the location drawing and details provided in the Operator Comments.  
Please note this location was originally permitted under Bison Exploration and was later acquired by Axis. The approved Form 2A (Bison) has the disturbance listed as 13.73 acres, but the associated location drawing indicates 15.18 acres of disturbance. This was the source of the confusion and the issue was communicated with the COGCC Reclamation team on August 24, 2022.

COGCC Decision: **Not Approved**

COGCC Representative: Reclamation Staff is aware of the attached documents provided by the Operator.  
Reclamation Staff, Chris Binschus, has forwarded this issue onto OGLA Staff, Melissa Housey. There are concerns about new cultural distances with the expansion of the location. Operator shall reach out to OGLA Staff for guidance on correcting information related to cultural distances.
