Financial Assurance	<p>I have review the aforementioned Form 9 Transfer and have found the following issues that will need to be resolved before the transfer can be approved.</p> <p>Issue 1: There are two unaccounted for related facilities that will need to be accounted for by either the seller or the buyer.</p> <p>oLocation ID #438248, Facility #480298 – Spill or Release</p> <p>oLocation ID #481015</p> <p>Solution 1: If these facilities are to be transferred to Beeman Oil & Gas, then the will need to be added to the Wells and Facilities Transferred list. If they are to be retained by the Seller, then they need to be added to the Wells and Facilities – Not Transferred. A Seller</p>	11/18/2022

Retains Responsibility Attestation is also required regardless if these two items are added to the list since there are already items listed that are related but not transferred.

Issue 2: As previously mentioned, a Seller Retains Responsibility Attestation is required.
Solution 2: Seller Retains Responsibility Attestation needs to be submitted and added to the Subsequent.

Issue 3: There are two unresolved Field Inspection Reports, FIRs with Corrective Actions, CAs outstanding

Document #702800168 with 6 Corrective Actions

Document #689802836 with 1 Corrective Action

There is also a pending FIR with CA pending

Solution 3: These corrective actions may or may not have been resolved. FIRs with outstanding corrective actions are transferable items that must be accounted for in the Form 9 in one or more of the following ways.

1.If the compliance responsibility for such an FIR transfers to the buyer include that FIR on a Related Incidents Transferred list.

2.If the compliance responsibility for such an FIR is retained by the seller include that FIR on a Related Incidents Not Transferred list and provide a Seller Retains Responsibility Attestation.

If the parties perform the research and determine that all corrective actions for a particular FIR have been resolved, that FIR does not need to be listed on the Form 9 but will be subject to Rule 218.

Issue 4: Incidents Proposed For Transfer vs Incidents Transferred There is an Unresolved Spill or Release on both lists, #402750184. Our system treats many Spill/Releases as facilities. The remaining Unresolved Field Inspection needs to be accounted for on the Subsequent side.

Solution 4: The Spill/Release incident needs to be removed from the Incidents Transferred list and added to the Wells and Facilities Transferred list. The Unresolved FIR needs to be accounted for on the Subsequent side by either adding it to the Incidents Transferred list or create a Related Incidents Not Transferred list. The conditions in Solution 3 will apply here as well.

Assuming the other Form 9 requirements are met, all Form 9s shall now be passed with the following two COAs:

The Buying Operator must file a Form 3, Financial Assurance Plan, within 10 business days of Form 9 approval –OR– by the applicable deadline as described in the Notice to Operators, Delayed Deadline for Rule 702.b(1)A.i., whichever is later. Per Rule 702, Buyer will then provide any required additional financial assurance as soon as practicable but no later than 90 days from the Commission’s approval of the Form 3, Financial Assurance Plan.

The Selling Operator must file a Form 3, Financial Assurance Plan within 10 business days of Form 9 approval –OR– by the applicable deadline as described in the Notice to Operators, Delayed Deadline for Rule 702.b(1)A.i., whichever is later. Per Rule 702, Seller will then provide any required additional financial assurance as soon as practicable but no later than 90 days from the Commission’s approval of the Form 3, Financial Assurance Plan.

Both operators will need to respond to this email accepting the Conditions of Approval.

Finally, all revised documents can be emailed to me and I will get them uploaded to the form.
