COGCC Rules (check all that apply)

☐ 1101. Installation and Reclamation ☐ 1102. Operations, Maintenance, and Repair ☒ 1103. Abandonment

Comment: All associated wells being serviced by this facility have been plugged and abandoned. On location dump and process flowlines are being removed. Off location flowlines between area (PA) wells and facility/ battery are being removed/ AIP. The facility/ tank battery has been decommissioned; tanks and equipment have been removed. Fenced excavations were observed on location at battery/ equipment areas. (2) flowlines (2" CS OLF WH lines) were observed in a large excavation at center of location. The flowline cut ends are bullplugged; these flowlines are in process of removal/ AIP. Oxy contract personnel were in the process of removing OLF pipe north of the battery area (OLF's serviced Bulthup 1-6, 27-6 wells). Remediation work at facility/ battery is in progress (historical).

Corrective Action:
