Comments:

The former SARCHET 32-33 well (API: 05-123-18736) was P&A'd on March 11, 2004 according to Form 6 Document Number 1265049. On August 24, 2022, OXY conducted a final reclamation inspection for the former SARCHET 32-33 well pad (Location ID: 409195). The former well pad has successfully been returned to agricultural use: sudan grass. The inspection determined that final reclamation has been achieved in compliance with COGCC Rule 1004, which applies to reclamation of agricultural lands. The associated tank battery is located 0.39 miles northwest of the well pad and has been returned to agricultural use: unused corner of pivot. Oxy used COGCC as drilled coordinates to locate the well and photographed using drone photography. A general site location map is included as Figure 1; and the Site Map displaying the location of the reclaimed site on aerial drone imagery captured on August 24, 2022 is included as Figure 2. An aerial image of the tank battery is included as Figure 3. A panoramic image of the P&A location was taken above the P&A wellhead location. The panoramic image log is included as Figure 4.

Based on the successful reclamation of this site, a Form 4 Sundry Notice requesting final reclamation status has been prepared for submittal to the COGCC. This letter will be included as an attachment to the electronic Form 4 submittal.
