(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Date of work JULY 23, 1971

It is our intention to plug Dials No.1 at 700 ft. with 15 sacks of cement using a dump bailer. The hole will then be released to the land owner (Charles E. Hogue) for completion and use as a water well. The plug will be immediately above a 30 ft. drill collar and 6  $\frac{1}{2}$  in. bit which are permanently stuck in the hole.

The hole has a total depth of 750 ft. and is through a continuous water zone which begins approximately 5 ft. below ground level. There is also 192 ft. of 7 in. surface pipe cemented in place.

The transfer of liability for the well (hole) from Dials Oil Co., Inc. to the land owner is attached.
