Kevin,

After a cursory review, COGCC is returning Document #403206486 for Remediation #9363 to draft for the following reasons:

1. The form is not filled out in its entirety and is missing rule selections.
2. Full 915-1 sampling is required.
 1. Follow the guidance document for pit closure.
3. Not enough sample points are proposed within the fairly large area.
4. Site investigation is not complete although the form says so.
5. Please remove any duplicate attachments.
6. There are two recorded pits at the location. A separate Form 27 should be opened for closure of the skim pit.

Please conduct a complete QAQC before resubmission.

Nikki Graber, P.G.**DJ Basin Region Environmental Supervisor**
