General Comment:

On 1/5/2023, Reclamation Specialist O'Malley conducted an interim reclamation and stormwater inspection at TEP Rocky Mountain LLC's CLOUGH-66S94W/28NENE Location #323912 in Garfield County, Colorado.

The following compliance issues were observed during this inspection:

- Methanol tank label in disrepair

Refer to the "Location," "Reclamation" and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment

Areas of the location not needed for production, or no longer in use have been reduced and reclaimed. Interim areas appear vegetated with introduced perennial grasses (crested wheatgrass, Russian wildrye) and occasional native shrubs (rabbitbrush, sagebrush). If annual undesirable plant species and/or noxious annual weeds (cheatgrass) are present, they are not evident due to winter season and snow cover. A followup inspection will be conducted during a future growing season to determine compliance with 1003 requirements.
