Reclamation - Storm Water - Pit**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: Evidence of rill erosion was observed on both the interior and exterior walls of the produced water pit. Due to the evident erosion, the pit walls are now unconsolidated and not stabilized. The pit walls and berms need to be maintained and stabilized to minimize erosion and to ensure that sediment laden stormwater doesn't migrate off location. Refer to attached inspection photos.

Corrective Action: Immediately install or repair required BMPs per Rule 1002.f. in accordance with good engineering practices. Corrective action date is the date the location was observed out of compliance.

Date: 01/13/2023

Pits: ☐ NO SURFACE INDICATION OF PIT
