OIL AND GAS CONSERVATION COMMISSION OF THE STATE OF COLORADO

PLUGGING RECORD

INSTRUCTIONS

Within thirty (30) days after the plugging of any well, the owner or operator thereof shall file this form in duplicate for wells on Patented or Federal lands, and in triplicate for wells on State lands, give a detailed account of the manner in which the abandonment or plugging work was carried out, including the nature and quantities of materials used in plugging and the location and extent (by depths) of the plugs of different materials; records of the amount, size and location (by depths) of casings and junk left in the well; and a detailed statement of the volume and weight of mud fluid used.

Operator Howard W. Cox, Jr. Field Wildcat Wildcat
 Lease Name Newton-Government Well No. 1 County Jackson
 Location SW/SE Section 10 Township 9N Range 78W Meridian
 (Quarter Quarter)
660 feet from S Section line and 1980 feet from E Section Line
 Nor S E or W

TOTAL DEPTH 4583 feet DATE OF PLUGGING June 11, 1959

DETAILS OF WORK

In accordance with Mr. G. Frazier's instructions a 280 foot cement plug has been set from 4301 to 4583 feet. This plug will seal off the Muddy, Dakota and Lakota sections. Approximately 90 sacks of cement were used to develop the 280 foot plug. From the top of the plug at 4300 feet the hole was filled with mud to the bottom of the surface casing. Ten sacks of cement were spotted in the bottom of the surface casing and 5 sacks of cement in the top of the surface casing. A 10 foot pipe marker was set in the top of the surface casing with 6 feet of the marker inside the surface casing and 4 feet of the marker exposed above the surface.
