Comment:

All permitted wells on the location were abandoned on 11/11/2021. After conversations with staff, it was determined that final reclamation activities were required to be completed by 11/11/2022

It was observed in this inspection that final reclamation has not been performed. The location and access road remain.

Kochia, an undesirable plant species/weed was observed on location. Dormant season and snow cover prevented a full weed assessment. Ongoing weed management is required until the location passes final reclamation.

Corrective Action: **Conduct Final Reclamation in accordance with 1004 Rules.**
