**General Comment:**

On 1/23/2023, Reclamation Specialist O'Malley conducted an interim reclamation and stormwater inspection at Caerus Piceance LLC's SHIDELER-66S92W/29NESW Location #335423 in Garfield County, Colorado.

The following compliance issues were observed during this inspection:

- Staining within tank battery containment
- Production areas overgrown with vegetation
- Anchor marker in disrepair

Refer to the "Location," "Reclamation," and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

1003 f. Weeds Noxious weeds? P

Comment Areas of the location not needed for production, or no longer in use have been reduced and reclaimed. No noxious weed concerns observed at the time of this inspection. Introduced perennial grasses (crested and intermediate wheatgrass, Russian wildrye) appear established. However, assessment was impeded by snow cover. A follow up inspection will be conducted during a future growing season to determine compliance with 1003 requirements.

Comment:	<p style="color: blue;">At the time of this inspection the location and access road are snow covered; unable to perform full stormwater inspection. No stormwater issues observed in visible portions of the location. However, the working pad surface is showing some signs of degradation from snow plowing. Maintenance may be necessary to prevent degradation to the pad surface in the near future.</p>
