CORRECTIVE ACTIONS:

1 CA# 164658

Corrective Action: Repair or install berms or other secondary containment devices per Rule 603.o. Date: 10/19/2022

Response: CA COMPLETED Date of Completion: 09/19/2022

Operator Comment: Secondary containment was repaired on 09/19/2022. The well was shut in, and restarted once repaired.

COGCC Decision: _____

COGCC Representative: _____

2 CA# 164659

Corrective Action: Form 19I, document number 403169688 was submitted and is in process. Operator is to shut In well that is producing and clean up free oil. Contact COGCC EPS.

Date: 09/23/2022

Response: CA COMPLETED

Date of Completion: 09/22/2022

Operator Comment: The de minimus skim of oil reported on soil was located, scraped up and removed. The soil collected amounted to a couple shovel fulls.

In response to the denial of our initial FIRR filing:
Multiple visits and inspections to the site were completed at the time of release to verify any amounts of oil that were present were removed and disposed of. The resulting volume with staining was as stated previously adding up to couple shovels worth of material. When collecting, the only soil collected was the stained soil which was just the top one-eighth inch or so in each of these areas. Additionally I recall speaking over the phone to the inspector and informing that we would shut the well in until the berm was repaired and turn it back to PR once complete.

COGCC Decision: _____
