October 2, 1995

Sunset Plugging & Equipment Inc.
4902 Kiowa Drive
Greeley, CO 80634

In regards to the Montgomery 1-21 well. It is written in the lease that things cannot and will not be done without our knowledge, (behind our backs).

There will be no changes in the operation of our well without our permission. No equipment will be removed until the water pollution problem has been taken care of completely and all outstanding bills are paid in full including the lein on our farm for road grading that was contracted by the operator.

Frank J. Montgomery
