CORRECTIVE ACTIONS:

1 CA# 166910

Corrective Action: Control and contain spills/releases and clean up per Rule 912.b. 24 hours from date of discovery/date of inspection to remove free fluids and 30 days to remove stained soil. Provide documentation of clean up efforts, once completed, in FIRR.

Date: 02/06/2023

Response: CA COMPLETED

Date of Completion: 02/07/2023

Operator  
Comment:

Cleaned up per Rule 912.b. No free fluids as a result of the release. Seal leaked on treater and on thief hatches causing some stain on the side of the tanks and treater. Seals were replaced. Additional VRU was sourced and set on the location to handle more tank vapors. Due to the weather and electrician getting COVID last week finishing rigging in second VRU now. Some stained soil was stockpiled on location in containment and is scheduled to be hauled to Pawnee Waste on 02/07/2023. Will submit the manifest via a second FIRR or Sundry Form 4 on 02/08/2023.

**2** CA# 166911

Corrective Action: Comply with Rule 606.

Date: 01/20/2023

Response: CA COMPLETED

Date of Completion: 01/13/2023

Operator  
Comment: Complied with Rule 606. Pallets in picture and other small equipment are part of the sound wall construction and VRU addition. Recent snow on them delayed construction but material is being used. Have moved things over toward construction area so that is clear.
