Operator
Comment:

The purpose of this response is to provide an update as to the status of this matter. At the request of the surface owner, TEP is currently making application requesting a variance from performing final reclamation at this location per Rule 502. The Docket Number for this Surface Owner Variance Request is #230200043. TEP is currently working with a COGCC Hearings Officer to set a hearings date for this matter. TEP is awaiting a final determination from the COGCC regarding this Surface Owner Variance Request.

COGCC Decision: **Not Approved**

COGCC
Representative:

Inspector acknowledges TEPs intent to pursue a variance. However, Inspector is unable to approve this resolution as the response of "Corrective Action Completed" indicates that the corrective actions from the inspection report have been addressed. Based on the operator's comments within this resolution this does not appear to be the case. Please note that until a variance request has been submitted and approved, corrective action(s) and date(s) remain applicable. Inspector will continue with business as usual including follow-up inspections. Also, be aware that a submission for a variance request does not guarantee approval; corrective action(s) and action date(s) would remain applicable until resolved if request is denied.
