 VEGETATIVE COVER \_\_\_\_\_

1003 f. Weeds Noxious weeds? P

Comment Areas of the location not needed for production, or no longer in use have been reduced and reclaimed. No noxious weed concerns observed at the time of this inspection. Introduced perennial grasses (Russian wildrye, tall wheatgrass) appear established. However, assessment was impeded by snow cover. A follow up inspection will be conducted during a future growing season to determine compliance with 1003 requirements.

Comment: <span style="color:blue;">At the time of this inspection the location and access road are snow covered; unable to perform full stormwater inspection or determine status of corrective actions from inspection #700702765. It appears gravel has been added to the location entrance to the east, per FIRR #402728350. Snow cover prevented full assessment of stormwater BMPs.</span>						Date: <input style="width: 100px;" type="text"/>
