Comment: The well location appears to meet final reclamation regulations and standards, and appears reflective of reference areas. Unable to find evidence of oil and gas activities and/or disturbances. Tank battery does not appear to meet final reclamation regulations and standards, nor have reflective growth of reference areas. Reclamation should have been conducted on 11/29/2017, which is within three months from plugging the well.

Corrective Action:	Comply with Rule 1004. Refer to "Comment" under "COGCC Comments section" at the end of this inspection report for Corrective Action date details. Collaborate with the landowner to allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production.	Date	05/15/2023

		Multi-Well Location	<input type="checkbox"/>

COGCC Comments

Comment	User	Date
This is a corrective action inspection conducted by a COGCC contractor. The operator has been out of compliance for several years. However, due to an error in the submittal process the inspection was not submitted to the Operator until 2/15/2023 even though the field inspection date was 10/5/2022. Therefore, the CA is set for a future date in the spring of 2023 rather than backdated to when the reclamation should have been conducted. Well location does not meet final reclamation regulations and standards. Reclamation should have been conducted 11/29/2017, which is within three months of plugging the well.	huwak	02/15/2023
