**General Comment:**

This is a follow up desktop inspection to correct the previous Field Inspection Report (FIR) Doc.# 708000185. The previous FIR incorrectly referenced an Inspection document and tank battery location ID, but the remainder of the document is accurate and the corrective actions will remain.

This is a Final Reclamation Inspection for the well and its associated tank battery. The well was plugged and abandoned on 7/2/2019.

Inspection for overall Final Reclamation is a Corrective Action Inspection see sections below. Tank battery is addressed under Inspection document 708000187, Location ID 305179.
