Re: Brandon Field
Kiowa County, Colorado

5-198-456

Dear Ed:

Pursuant to the above referenced field and specifically the SWD #1 well (Wear #1), the NWBU #51 (Spring Wear #1) and the NWBU #2I (Pyles #B-1) wells, Park Oil & Gas, Inc., Operator, requests a 60-day extension to the State imposed deadline of May 14, 1990.

Due to the conditions that exist in the referenced well bores, the extension, if granted, will allow Park to adequately repair the SWD #1, plug the NWBU #5I (after cleaning well bore of tubing fish), and to test the NWBU #2I for potential undeveloped behind pipe reserves.

Please note that action on each well bore has already been initiated by either pulling tubing and packers, and attempted clean-up of the NWBU-5I well bore of tubing fish. Work is ongoing.

Your consideration and prompt response to this request is encouraged.

Sincerely,

Robert Dale Walters
RDW
