General Comment:**COGCC Inspection Report Summary**

On Tuesday, 03/07/2023, Inspector Kirby Burchett, conducted a routine field inspection at Chevron U.S.A., Inc. (Scout Energy Partners) on the Union Pacific 12-27, Location #314607, in Rio Blanco County, Colorado.

This location is within or in close proximity to a Parks and Wildlife (CPW) District with High Priority, NSO, and Density Habitat regulations.

Any Corrective Actions from previous Inspections are still applicable.

While there, I observed well has been shut in. Rod pump has been recently removed from well, shut in and equipment is moving off location. During this inspection the following compliance issues were observed:

1. Continue moving equipment from location.

A follow up on this site inspection will be conducted to ensure all compliance issues have been corrected to comply with COGCC rules.

Comment: Limited Stormwater inspection due to location being covered with snow.
Sediment piles on edge of location due to snow removal.
Oil and gas operators shall implement and maintain Best Management Practices (BMPs) at all oil and gas locations to control Stormwater runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation.
Oil and gas operators shall implement and maintain vehicle tracking Best Management Practices (BMPs) to control potential sediment discharges from operational roads, well pads, and other unpaved surfaces.
