## COMMENTS:

Renegade requests approval of an alternative MIT for the Colorado State C#2 as allowed for by Rule 417.b(3) after Director consideration of any equivalent test or combination of tests.

Renegade believes the Colorado State C#2 demonstrates mechanical integrity due to a 10/9/2022 bradenhead test (Doc #403195932) performed showing no bradenhead pressure and tubing/casing pressure of 2/116 psi coupled with 2021, 2020 and 2019 annual bradenhead tests conducted showing no bradenhead pressure and very similar tubing/casing pressures slightly building over time.

The Colorado State C#2 4-1/2" production casing was completed with a DV tool at 1606' and cemented with 200 sacks of cement. The 8-5/8" surface casing landing depth of the Colorado State C#2 is 258'. It has been cemented back to surface with 225 sacks. The Fox Hills water sand appears in the Colorado State C#2 from approximately 1330'-1440'. Fresh water isolation and protection by cement should be present in the well.

Renegade is attempting to get Western Gas Resources cooperation to add this well to their currently operating Wattenberg Gas Gathering System in the vicinity of the Colorado State C#2 production facility. At this point we have been frustrated establishing a dialog. Utilizing the well's produced gas to supply an electrical generator for a data center operation is also an option once final rules are crafted by Adams County.

This well has been SI as a result of the Third Creek Gas Gathering System shutdown on 6/1/2018 and was producing at the time of SI. The Colorado State C#2 was produced utilizing conventional rod pumping equipment.

Operator Comments:

This Form 4 is being filed for the State of Colorado C#2 in response to a need for an alternative MIT approval to satisfy a COGCC rule to conduct MITs on wells SI longer than two years. Other Renegade wells with similar circumstances have had Form 4's previously approved. Conversations with the COGCC staff coupled with the well's circumstances has led to the belief that this filing is ripe for approval.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
