**General Comment:**

COGCC Inspection Report Summary

On Wednesday 3/15/2023, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Miller 12, at Location # 335028 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

C/A (stored equipment) has not been addressed from previous inspection document # 700703639. All other C/A's appear to have been addressed.

During this inspection the following compliance issues were observed:

1. Meter calibration card not conspicuously posted.
2. Stored/unused equipment from previous inspection is still present. C/A date remains the same (3/8/2022).
3. Random debris.
4. Tank labeling missing information.
5. Braden head is leaking and chemical line leaking.
6. 2 braden heads are not visible.

Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.

**Location**Overall Good: ☐**Signs/Marker:**

Type	BATTERY		
Comment:			
Corrective Action:		Date:	
Type	OTHER		
Comment:	Separator units include attached storage tanks. The sight glass located on the side of the unit indicates the storage tank is full of an unknown fluid. No form of labeling or markers are present to identify a potential hazard or the contents of the storage tank.
